

Pet Commissions

By Irina Garmashova

I am an artist with over 35 years of experience. Animals are my favourite subjects by far. I particularly enjoy depicting all the fine details as accurately as possible as well as capturing the character of the subject in my art works.

I work from photos of your pets which are normally dealt with through email. I will need good quality photographs with good lighting and contrast and with sharp focus. To get the most accurate picture of your pet I need to be able to see all the detail, such as the correct colour of the fur, eyes and any other features of your pet. Also avoid any photos with lens distortion. Photos taken in natural light are the best. I will need to have one photo which displays the pose you would like in the final art work, but as well as this I need as many other photos as possible. This will help me understand your pet and helps with the final result. I always have a lot of questions to start with so we can get the picture you want.

Once the work is completed I will email the result for you to take a look at and approve.

The price of the pictures will depend on size, how much of the pet will be in the picture and any details around the pet but to give an idea of prices (payment on completion):

Cats

Portrait £95 at 10 x 14 inches plain background.

Full Body £135 plain background 10 x 14 inches.

Any additional details will add to the price please contact me to discuss. See the example below:

Dogs

Portrait £95 10 x 14 inches on a plain background

Full body £135 10 x 14 inches plain background.

Any additional details will add to the price please contact me to discuss. See the example below:

I do other pets.

Horses

Chinchillas

Rats

The actual time it takes will depend upon how many orders I have at the time, and on the size and complexity of the painting. I will send by insured post which is additional to the price of the picture.
